

JULY 2017

Q8 SECURITIES LAUNCHES NEW FX BROKERAGE IN MIDDLE EAST

New brand Q8Trade will initially target Kuwaiti customers

Q8 Trade is a brand owned and operated by Q8 Securities, a privately held securities company regulated by the Central Markets Authority (CMA), the Kuwaiti financial watchdog. Its license allows it to provide online brokerage services for CFD and forex trading.

As a Kuwait-based broker, its website is available in both English and Arabic, and it has customer service offices in Kuwait and Cyprus.

Founded in 1985, Q8 Securities was originally established as Al-Arabi before it rebranded earlier this year. The transformation and launch of the new FX brokerage business was aimed at delivering off-market, bespoke solutions for GCC retail clients.

Speed, Precision, Power

“We believe that a successful broker should invest in his clients and avoid conflicts of interests, therefore our financial experts and experienced brokers never stop researching, analysing and strategizing to provide the best educational resources and tools to help traders from different backgrounds and experience levels to pick the best opportunities and achieve their financial ambitions”
