## A DEDICATION TO SOCIAL RESPONSIBILITY

### Q8 Capital Encourages Children To Adopt An Active Lifestyle That Will Contribute To Their Physical Development

Educating children about rules of society, obedience, discipline, team spirit, sportsmanship, competitive spirit, cooperation and how to be good winners and good losers, through the game of football is key for their growth and development.

Q8 Capital, Q8 Trade and Empire Sports Academy are planning to restructure and improve the Qadisa SC youth training facilities to provide children a healthy environment where they can learn and flourish.

“Not only do we want to teach children the rules of football, but also to take advantage of the educational aspects of football as a language and culture. We must provide proper instruction and support regarding balanced nutrition and personal development and to create awareness of these issues.”
